The Sound Test

Xtreme Lubricants Lab

Xrev ZeroFriction™

3-in-1 Anti-Friction Metal Treatment Formula

1. Proprietary Anti-Friction Metal Treatment Formula which bonds molecularly to the metal surfaces inside the engine, coating the piston and chamber;
2. Superior additive package of detergents, dispersants, buffers, solvents, corrosion inhibitors, viscosity index improvers & emergency lubricants to clean and protect the engine; and
3. Premium Performance Fully Synthetic Base Oil which maintains its multi-grade viscosity even under extreme conditions

**Smoother. Quieter.
More Power.**

Xrev ZeroFiction™ Formula

Cirrus (CR:272)
Integrating Averaging
Impulse Sound Meter

The Cirrus Sound Test clearly demonstrates an average 5% reduction in engine sound levels after using Xrev.

Xtreme Lubricants Lab

Xrev ZeroFriction™

3-in-1 Anti-Friction Metal Treatment Formula

- The Lubricity test clearly demonstrates that **Xrev ZeroFriction™ Metal Treatment Formula** is at least 3-4 times more effective in reducing friction in your engine.
- Creates a molecular bond to the metal surfaces inside the engine, providing a protective coating on the piston and chamber, eliminating any metal-to-metal contact
- Significantly reduces friction and heat
- Delivers a smoother and quieter acceleration, with more power released to the wheels.
